**Website** [HTTP://WWW.EAARS.COM](http://WWW.EAARS.COM)

### **For Sale or Trade**

Icom 746 with Microphone. Like New. Will consider trades for a ALS 600 or Kenwood TL 922A Contact Luis at 928-651-6500 or [KD7LMY@aznex.net](mailto:KD7LMY@aznex.net)

### **SAR Net**

Starting at 6:00 PM MST on Friday April 6th, James W1EYE will hold a net on the EAARS network for Search and Rescue members that are hams or, folks interested in SAR. The purpose of the net is to meet members from other areas and talk about various SAR subjects.

### **Field Day**

We still don't have a field day chairman but, it was decided that this year we will try doing a publicity type field day. It will be low power, probably 2A at a park or other public place in the Safford-Thatcher area. This will still take lots of help and a chairman. There is only one more meeting before field day!!!

### **Test Session**

We held a license testing session in March, 4 people tested but, nobody passed.

### **ARRL Affiliation**

The ARRL has the paperwork and it's supposed to take about 3 months but, they checked a list of members I sent them and we had a 57% ARRL membership so, it should go fine

### **Hamfests**

April 14, 2007 DeVry University Hamfest Sponsored by Arizona Amateur Radio Club Dunlap and 21st Ave, Phoenix

**2007 Officers**

May 5, 2007 Sierra Vista Hamfest Sponsored by Cochise Amateur Radio Club Green Acres Club Site on Moson Road

2007 White Mountain Hamfest will be June 2nd at the Show Low Intermediate School.  
Doors open from 7:00 am to noon.

**Arizona Legislature House Bill 2595**

This is the bill that confirms PRB-1 in Arizona and also makes it apply to HOA's

As it stands now the bill is dead it is being held by the Chairman of the Committee on Government Mr. Jack Harper. Apparently he is afraid of the HOA Lobbyist's, and will not release the bill to be read by any other committee.

**Boat anchors for sale**

I got this off the Arizona Ham List @ Yahoo

Several weeks ago I mentioned to this group that I'm selling my 40-year-plus collection of amateur gear. I've since created a list which a buyer of one of my receivers kindly created a web page from listing an up-to-date list of remaining gear. This can be viewed at:
